Mach 1 Global Services Announces Atlanta Station Expansion and Relocation

Tempe, Arizona – September 16, 2019 - Mach 1 Global Services, a domestic and international provider of transportation and logistics services, announced today that it has expanded and relocated its Atlanta branch to a new 94,000 square foot facility in the up and coming Fulton Industrial Park.

Mach 1 Global Services entered the Atlanta market in 2008. This new facility was strategically chosen to increase local and regional warehousing capabilities and enhance the current comprehensive portfolio of freight solutions offered, which include domestic and international air, ground, and ocean freight. In addition to offering traditional freight forwarding services, this operation will serve as a key hub for Mach 1's internal Linehaul network, as well as provide local cartage, warehousing, and contract logistics for local and national clients.

"Mach 1 Global is proud to increase our footprint and presence in Atlanta to better serve our local client base," stated Keith Renteria, Mach 1's Regional Vice President of the Southern Region. "We are extremely excited about the additional opportunities the expansion brings, not only from a square footage perspective, but also in the growth of our staff, equipment, and freight services across the southern United States for Mach 1."

Mach 1's Atlanta facility is located at 6150 Lagrange Boulevard SW, Atlanta, Georgia 30336 and can be reached at (404) 362-9802. For more information on Mach 1 Global Services, please visit www.mach1global.com.
